AWARDS 2014
WINNER

ACTON GARDENS SOUTH ACTON

We have helped to secure planning approval for the master plan for Acton Gardens, one of the largest regeneration initiatives in West London.

The £579m scheme will create around 2,500 homes, half of which will be affordable, whilst providing a green neighbourhood of parks, communal gardens and allotments alongside community facilities and retail space.

The permission also includes detailed consent for 106 new homes and will assist in reconnecting the estate to existing underground and overground stations as well as Acton town centre.

Acton Gardens LLP is a joint venture between Countryside Properties and London and Quadrant Housing Trust (L&Q). The master plan was the result of extensive community and stakeholder consultation.

2014: London evening Standard New Homes Award - Best Regeneration Project

“Securing planning committee approval is a crucial milestone in the transformation of South Acton and we are extremely pleased to have been given the green light by our partners at the London Borough of Ealing.”
